TEMPORARY INTERRUPTION OF WATER SUPPLY AT DODOWA BOOSTER STATION

The Management of the Ghana Water Ltd. (GWL) wishes to inform the public, particularly residents and institutions within the North-Eastern part of Accra, of an interruption in water supply as a result of a fire outbreak at the Dodowa Booster Station.

The incident has necessitated a temporary shutdown of operations at the facility to enable comprehensive repair works to be carried out.

Our team of engineers are currently on site working tirelessly and around the clock to restore the system to its full functionality.

The Dodowa Booster Station serves several communities, and because of this interruption, areas directly affected or are likely to experience low pressures or no flow are: East Legon, Agbogba, Haatso, Atomic Frafraha, Ashaley Botwe, Adjiringanor, Ashongman, Dome, Adenta, Madina, Oyarifa and surrounding areas.

Management of Ghana Water Ltd. regrets the inconvenience this unforeseen development may cause and appeals to customers to bear with the situation.

We wish to assure the public that every effort is being made to rectify the fault in the shortest time possible and to restore regular water supply.

Management is putting in place alternative arrangements to ensure the continuous supply of water to essential service providers, including schools and hospitals, during this period.

Institutions that may deplete their storage are advised to promptly contact their respective Municipal Chief Executives (MCEs), Assembly Members, Unit Committee Members, or reach out to the Ghana Water Ltd Call Centres on **0207385089, 0207385090, or 0302218240** for assistance.

We are grateful for the patience and understanding of our valued customers and stakeholders during this period.
